Glance at the Late Election.

The glance need be only a very superficial one to show that, at least so far as Montgomery county goes, the result is indicative of a strong State credit feeling among our people. Every candidate who got the vote of this county is known as a strict State credit man, and in those cases where the public debt was largely discussed in the canvass, the majority was uniformly decisive. It is true that Judge Rice was beaten in the district by a very small majority, but in Montgomery county his vote was over treble that of his opponent. We are the more proud of this result because where he could have made votes by it, he manfully refused to cater to popular feeling by underbidding his competitors at the expense of the public creditor.

In the election for County Judge the large majority commanded by Judge Tyler is the more significant from the fact that a greater variety of influences were combined against him than against Judge Rice. Messrs. Yancey and Johnson represent two different grounds of opposition to him, the former making his line of attack purely political, the latter attacking certain points in his record as financial agent of the county. We are not now going in to the merits of this painful controversy, only it is certain that Judge Tyler's vote would have been much higher but for it, and even as it was, it was very nearly double that of Mr. Yancey. Before leaving this subject we desire to do an act of justice to Mr. B. D. Johnson. It will be remembered that his vote was very small compared with that of the other two candidates. This small vote cannot fairly be taken as a measure of Mr. Johnson's standing in the county. Towards the close of the election a very heated animosity arose between the supporters of Messrs. Tyler and Yancey, and they were as eager to defeat their respective antagonists as to elect their friends. This feeling led to a large number of voters whose first choice would have been Mr. Johnson transferring their votes, some to Tyler and others to Yancey. Of the candidates for Chancellor, neither was much known in this county, but we have reason to believe that either would make an unexceptionable judiciary officer. We freely congratulate Judge Stacy, while we are free to avow that we voted for his competitor.

In the vote for Attorney General, Mr. Watts had a deservedly large support in his own locality of New Providence, but seems to have been little known elsewhere; the truth is that Mr. Burney's election was a foregone conclusion from the first. It is a rare thing for a young lawyer to make an impression so universally favorable as Mr. Burney has done in so short a time. We heartily congratulate him on his well-deserved success.

Of the vote for Circuit Clerk, Mr. C. D. Bailey won on his record. It is not generally known that not only in the Circuit Court, but in both the others, leaving out the present incumbents, no clerk within the last forty years, except Mr. Bailey and his father, has come out of office with his accounts correct.

Of the County Court Clerkship we have to speak with mingled congratulation and regret. Mr. R. D. Mosley, the successful candidate, has already in offices of high trust proved himself a thoroughly able and faithful functionary, and Mr. Peter Oneal will leave his office with the universal commendation, well done, good and faithful servant.

We need go no further; good, sensible business men have been placed in every office, and the county will be well served. Our only regret at the termination of the election is in saying farewell to two such faithful public officers as Judge Rice and Squire Oneal.

Public School Building.

The design for the public school buildings made by Mr. John L. Smith, of Nashville, has for some time been before the mechanics, who, after studying it, have competed briskly for the contracts. They have finally been awarded to Messrs. Gilbert, Beatty & Co., who will immediately commence the preliminary work. From our knowledge of the contractors as upright and energetic business men, we feel justified in congratulating the city on the selection made. Now let us have the work hastened, and let our public school system have room to breathe in.

THE YOUNG MEN.

It is very sad, but the worshipful company of old bachelors is suffering an alarming depletion of its ranks. Dr. C. L. McCauley used to be a reliable member of the company, but he has a deaf ear to all the blandishments of Cupid. About two years ago he began to show symptoms of vacillation in his allegiance, one of which was a habit he got into of spending his evenings at the Clarksville Academy. Since his loyalty to the company has been doubtful, and on Thursday afternoon at two o'clock he finally deserted, and enlisted at Selma, Ala., under the victorious banner of Miss M. Blount, late at instructor of the Academy. We are magnanimous and forgive him; we were ourselves an occasional visitant at the Academy at the time, and admit that the temptation was one which we might, under the circumstances, have found irresistible.

Kinnear, Wood & Co.

This enterprising firm being the first to open business in their new building since the fire, we have with much interest visited the establishment, which is not surpassed in completeness by any in town.

The building comprises a principal floor, second floor and basement, each 34 feet by 100 feet in dimensions. The principal floor is entirely occupied by the show and sales room for the display and sale of the varied stock of the establishment. Here may be seen everything wanted by a housekeeper, from a cooking stove to a nutmeg grater. Tin and sheet ironware and table cutlery, queensware, china and glassware, silver and plated goods and Japan ware of all prices will tempt mother-familias to spend a whole morning at the establishment, causing the transfer of an amount of the national currency which it is to be hoped will be satisfactory to mother-familias. Taste as well as service and economy may here be consulted. Some table and mantle ornaments of some delicate diphaneous material, whether glass or porcelain or some intermediate substance, we are unable to decide, will be recognized by connoisseurs as veritable works of fine art. If you prefer something more substantial, you may sample the stoves and grates.

Ample as the stock in this show room is, it is only specimens you find here. In the extensive room upstairs of the same dimensions with this you will find the whole stock crowding the length, breadth and height of the establishment.

The basement is equally divided between the cellar in front and the workroom in the rear: owing to the inequality of the ground, this work-room, 50 by 34 ft., is as well lighted and ventilated as either of the rooms above described; it is indeed a ground floor rather than a basement.

For workmen carry on the manufacture and repair of sheet-iron and tin-ware; a more complete establishment of the kind can hardly be found in the State.

New Building Enterprise.

We hear of the purchase by Messrs. Rexinger and Rick of two valuable lots for the purpose of immediately building upon them. These are the westernmost of the Court House lots originally purchased by Mr. Barker, confectioner, and the lot immediately west of it, occupied before the fire by a frame barber shop. The store built by Mr. Rick will be occupied by himself as a shoe store, that by Mr. Rexinger will be rented to Mr. Barker, the original purchaser of the lot. Rick was hard to root out of the public square, and stayed there till the roof was demolished over his head; we trust he will find his new stand favorable to his business.

Destructive Hail Storm.

We have tidings from our country friends of a very destructive hail storm in the northwestern part of the county, doing terrible damage to the tobacco crop. Messrs. James Parrish, John Jones, J. Dennis and W. Leavell have lost their entire crop. Capt. W. A. Elliott lost four-fourths of his, and Messrs. Marion and K. B. Davy and W. Green are more or less sufferers. Along the track of the storm, which is several miles long and half a mile wide, the crops are cutting down their crops and hoping to do something with the suckers.

Among the Chancery sales will be noticed that of the well-known Peacher's Mills property. No property since the war has come into the market deserving equally with this the attention of purchasers. It comprises some of the best land in the county, including the celebrated Peacher's Mills, the best stand for many miles for the business for which they were constructed.

The New Court House.

The competition for the building of the new Court House was decided on Tuesday by the selection of the beautiful design of Mr. Bunting, of Indianapolis. We understand that the design of Mr. Bruce, of Knoxville, was second on the list of the Commission.

THE ANNOUNCEMENT.

The announcement will be found in another column of Mrs. Rhodes' school for young ladies and little girls. We know of no institution in which the school so nearly resembles a pure and tranquil home under the tender solicitude of a mother, as that of Mrs. Rhodes. We trust, both for her sake and that of the children, that she will have a well-filled school room.

THE SOUTHWESTERN PRESBYTERIAN UNIVERSITY.

The Southwestern Presbyterian University is out with its usual advertisement. The faculty is the same as before, while the means of instruction have been largely increased in the scientific department, comprising as it now does a very complete laboratory, library and museum.

REV. R. K. BROWN.

Rev. R. K. Brown and family returned from Sumner County on Thursday last. He will occupy his pulpit to-morrow at the Methodist church at the usual hour for service.
